WESTERN GLORY HOLE, INC.
(Development Stage Company)
NOTES TO FINANCIAL STATEMENTS
September 30, 2003

1. ORGANIZATION

The Company was incorporated under the laws of the State of Nevada on March 28, 1983 with the name of "L. Peck Enterprises, Inc." with authorized common stock of 2,500 shares at no par value. On May 27, 1999 the authorized capital stock was increased to 100,000,000 shares with a par value of \$0.001 in connection with a name change to "Western Glory Hole, Inc".

On May 27, 1999 the Company completed a forward common stock split of 225 shares for each outstanding share. This report has been prepared showing after stock split shares with a par value of \$.001 from inception.

The Company has been engaged in the activity of seeking and developing mining properties and was inactive after 1990.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Methods

The Company recognizes income and expenses based on the accrual method of accounting.

Dividend Policy

The Company has not adopted a policy regarding payment of dividends.

Income Taxes

The Company utilizes the liability method of accounting for income taxes. Under

the liability method deferred tax assets and liabilities are determined based on the differences between financial reporting and the tax bases of the assets and liabilities and are measured using the enacted tax rates and laws that will be in effect, when the differences are expected to reverse. An allowance against deferred tax assets is recorded, when it is more likely than not, that such tax benefits will not be realized.

On September 30, 2003 the Company had a net operating loss carry forward of \$52,848. The tax benefit of \$15,854 from the loss carry forward has been fully offset by a valuation reserve because the use of the future tax benefit is undeterminable since the Company has no operations. The net operating loss will expire starting in 2005 through 2024.

Financial Instruments

The carrying amounts of financial instruments are considered by management to be their estimated fair values.

NOTES TO FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basic and Diluted Net Income (Loss) Per Share

Basic net income (loss) per share amounts are computed based on the weighted average number of shares actually outstanding. Diluted net income (loss) per share amounts are computed using the weighted average number of common shares and common equivalent shares outstanding as if shares had been issued on the exercise of any common share rights unless the exercise becomes antidilutive and then only the basic per share amounts are shown in the report.

Estimates and Assumptions

Management uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of the assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were assumed in preparing these financial statements.

Statement of Cash Flows

For the purposes of the statement of cash flows, the Company considers all highly liquid investments with a maturity of three months or less to be cash equivalents.

Financial and Concentrations Risk

The Company does not have any concentration or related financial credit risk.

Revenue Recognition

Revenue is recognized on the sale and delivery of a product or the completion of a service provided.

Advertising and Market Development

The company expenses advertising and market development costs as incurred.

Recent Accounting Pronouncements

The Company does not expect that the adoption of other recent accounting pronouncements will have a material impact on its financial statements.

3. SIGNIFICANT TRANSACTIONS WITH RELATED PARTIES

Present and former officer-directors have acquired 67% of the outstanding common stock of the Company and have made contributions to capital by payment of Company expenses of \$12,848.

4. GOING CONCERN

The Company intends to acquire interests in various business opportunities which, in the opinion of management, will provide a profit to the Company, however there is insufficient working capital for any future planned activity which raises substantial doubt about its ability to continue as going concern.

Continuation of the Company as a going concern is dependent upon obtaining additional working capital and the management of the Company has developed a strategy, which it believes will accomplish this objective through additional equity funding and long term debt which will enable the Company to conduct operations for the coming year.

-9-

ITEM 2. PLAN OF OPERATIONS

The Company's management is seeking and intends to acquire interests in various business opportunities which, in the opinion of management, will provide a profit to the Company but it does not have the working capital to be successful in this effort.

Continuation of the Company as a going concern is dependent upon obtaining the working capital necessary for its planned activity. The management of the Company has developed a strategy, which they believe can obtain the needed working capital through additional equity funding and long term debt which will enable the Company to continue operations for the coming year.

Since the end of the quarter ending September 30, 2003, the Company has entered into a letter of intent to acquire all of the outstanding shares of Health Enhancement Products Inc. for up to 8,000,000 shares of the common stock of the Company, subject to due diligence, execution of a definitive contract, and further final negotiations. At this time the Company is undertaking the steps necessary to consummate this transaction but is unable to predict whether it will close or not.

Liquidity and Capital Resources

The Company will need additional working capital to finance its planned activity, especially if it closes the Health Enhancement Products, Inc. transaction. In the event it can not obtain that additional working capital, this would have a detrimental affect on the Company's operations and planned operations.

Results of Operations

The Company has had no operations during this reporting period.
